1 Resolution may vary based on printer driver setting. Color ink droplets can be placed with a horizontal pitch of 1/4800 inch at minimum.

2 Photo print speeds are based on the standard mode driver setting using photo test pattern(s) and select Canon Photo Paper. Print speed is measured as soon as first page begins to feed into printer and will vary depending on system configuration, interface, software, document complexity, print mode, types of paper used and page coverage. See **www.usa.canon.com/printspeed** for additional information.

3 ISO/IEC 24734, 24735 define the default print and copy speed measurement methods. Print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734, excluding time to print the first set. Copy speed is the average of FCOT, ISO/IEC 24735 Annex D. See **www.usa.canon.com/ipm** for additional details.

4 Canon cannot guarantee the longevity of prints; results may vary depending on printed image, drying time, display/storage conditions and environmental factors. See **www.usa.canon.com/chromaLife100plus** for additional information.

5 Supported paper types for borderless printing are as follows: Photo Paper Pro Platinum, Photo Paper Pro II, Photo Paper Plus Glossy II, Photo Paper Plus Semi-gloss, Photo Paper Glossy and Matte Photo Paper.

6 Specifications are subject to change without notice. All printer output is simulated.

7 System requirements vary by application.

8 Compatible with Microsoft Internet Explorer 7 in Windows Vista or XP only. Not included on installation CD. Requires Internet connection during installation.

9 Warranty programs are subject to certain conditions and restrictions. See **www.usa.canon.com/support** for details.
